Hi So, Ron – Hope that you had a good and relaxing weekend

Some of the comments of the plan checker as they relate to the Lot Line Adjustment of Lot 22 should not be required in my opinion.
Kindly review the plan checker comments and my responses that was emailed to you on July 19.

For the sake of time, Could we set a time to discuss – let me know

Thank you

So,

Please find attached the expedited review of the entitled Lot Line Adjustment. I will continue to read and analyze the easements because I don't think the Surveyor did his due diligence in researching these items. I do have him signing the Exhibit B to declare that he certifies that he has properly researched and determined that the easements listed are not affected. But the items that I was able to download, I am reviewing. For now, I have provided a Second Review in the spirit of "expediting." There still appears to be some questions about his Parcel A.

Let me know if you have any questions or comments. Thanks.

Dan
